Admin CRM

Student Dashboard

SECTION 1

Public Website Features

Homepage

Animated hero section, live counters (students, colleges, courses), 5 stream cards, partner college showcase, success story carousel, FAQ accordion, CTA buttons.

Course Catalog

38 courses across 5 streams with tabbed interface. Filter by stream: Teaching, Medical, Para-Medical, Law, Technical/Management.

Course Detail Pages

Individual page per course — eligibility, duration, annual fees, career scope, salary range, entrance exams, top colleges, government job opportunities, Hindi description.

Online Application Form

Multi-step form: name, DOB, gender, mobile, email, address, district, course, qualification, percentage, preferred college, BSCC loan requirement, available documents checklist.

Blog System

14+ articles with categories (Teaching, Medical, Finance, etc.), bilingual support (Hindi/English), read-time estimates, featured article highlighting.

Contact Page

Contact form with name, phone, email, course, message. WhatsApp & phone links with click tracking. Rate limited to prevent spam.

About Page

Consultancy background, mission, team information, and why-choose-us section for new visitors.

Portal Pages

Dynamic section-based information pages for different portal categories. Custom 404 branded error page.

SECTION 2

Lead Generation & CRM Entry Points

Feature	Description	Type
Quick Apply Modal	4-step popup form on homepage: Name → Mobile → Course → Qualification. Submits directly to admin lead dashboard.	PRIMARY LEAD
Full Application Form	Detailed 15+ field form at /apply. Collects complete student information including documents checklist & preferred college.	PRIMARY LEAD
Floating Contact Buttons	Fixed phone & WhatsApp buttons visible on all pages. Each click is tracked as an activity event.	ENGAGEMENT

Feature	Description	Type
WhatsApp Pre-filled Links	Auto-encoded messages with student's course interest sent to counsellor WhatsApp. Click activity tracked.	ENGAGEMENT
Course Page CTA Buttons	"Apply Now" buttons on every course page — pre-filled with course name parameter to reduce drop-off.	CONVERSION
Contact Form	General inquiry form on /contact. Stored separately in admin contacts inbox.	CONVERSION

SECTION 3

Student Account & Dashboard

 Registration & Login

Email/Password signup with Firebase Authentication.
Email verification sent automatically on registration.
Password strength enforced.

 Forgot / Reset Password

Secure password reset via transactional email link. One-time-use token with expiry for security.

 Student Dashboard

Overview page showing profile completion percentage, application status summary, recent notifications, quick actions.

 Profile Management

Edit name, phone, email, qualification, full address.
Profile completion indicator shown to encourage completion.

 Document Upload

Upload 10+ document types (Aadhaar, 10th/12th marksheet, Caste Certificate, Income Certificate, etc.) via Cloudinary. Preview & delete documents.

 Application Tracking

View all submitted applications. Real-time status updates: New → Contacted → Documents Pending → Admission Done → Not Interested.

 Live Chat with Counsellor

Real-time in-app messaging between student and office counsellor. Message timestamps, read receipts. Powered by Firestore real-time listeners.

 Notifications

Instant notifications for document verification (approved/rejected) and application status changes. Read/unread state with history.

SECTION 4

Admin / Office CRM Dashboard

Module	Features
Secure Admin Login	Username/password auth. Rate-limited (5 attempts/5 min per IP). httpOnly cookie sessions with HMAC-SHA256 signing. Fail-closed security.
Lead Dashboard	Live inquiry list. One-click call (tel:) & WhatsApp links. Status workflow (Pending → Called → Admission Done). Internal notes per lead. CSV export. Today's count, pending follow-ups, total admitted.
Applications Management	All course applications with full student details. Status update workflow. Filter & search by course/status.

Module	Features
Student Directory	All registered students. Expandable cards showing: profile, all applications, uploaded documents. Last login & profile completion tracking.
Counsellor Chat	Inbox of all student conversations. Unread message count. Send replies. Mark as read. Student name & email visible.
Document Verification	Preview uploaded documents. Approve / Reject / Pending workflow. Add verification remarks. Download documents. Filter by student or status.
Activity Log	Complete timeline of all platform events: inquiries, logins, applications, document uploads, WhatsApp clicks, course views, etc. Pagination + search + filter by event type.
Contact Submissions Inbox	Separate inbox for /contact form messages. Read/unread tracking. Search & filter. Reply via phone/WhatsApp links.
Office Presence Status	Counsellor can mark themselves "online." Students see real-time availability. Heartbeat API keeps status live.

SECTION 5

Backend APIs & Database Architecture

API Endpoint	Method	Purpose	Auth
/api/admin/login	POST	Admin authentication with rate limiting	ADMIN
/api/admin/logout	POST	Clear admin session cookie	ADMIN
/api/admin/data	GET	Fetch inquiries, applications, students, documents, activities	ADMIN
/api/admin/update	POST	Update inquiry/application status & notes	ADMIN
/api/admin/chat	GET/POST	Get conversations / send admin replies	ADMIN
/api/admin/contacts	GET/PATCH	Contact form submissions, mark read	ADMIN
/api/admin/presence	POST	Update counsellor online status heartbeat	ADMIN
/api/student/applications	GET	Fetch student's own applications	STUDENT
/api/student/documents	GET/POST/DELETE	List, save, and delete student documents	STUDENT
/api/student/notifications	GET/PATCH	Fetch & mark notifications as read	STUDENT
/api/auth/send-verification	POST	Send email verification link	AUTH
/api/auth/send-reset	POST	Send password reset email	AUTH
/api/auth/welcome	POST	Send welcome email on new registration	AUTH
/api/contact	POST	Submit contact form (rate limited)	PUBLIC
/api/office-status	GET	Check if counsellor is online	PUBLIC

Firestore Database Collections (10 Collections)

Collection	Purpose	Key Fields
inquiries	Quick apply leads	fullName, mobile, email, course, status, note, createdAt
course_applications	Full application forms	userId, course, stream, qualification, preferredCollege, bscRequired, status

Collection	Purpose	Key Fields
users	Student profiles	uid, name, phone, qualification, address, profileComplete, lastLogin
documents	Uploaded documents metadata	uid, name, type, url, publicId, status, remarks, uploadedAt
messages	Chat messages	studentId, sender, text, readByAdmin, readByStudent, createdAt
activities	Event tracking log	type, title, description, name, email, mobile, userId, createdAt
notifications	Student notifications	uid, title, message, type, read, createdAt
contacts	Contact form submissions	name, phone, email, course, message, read, createdAt
presence	Office online status	online, lastSeen, by

SECTION 6

Security Architecture

Rate Limiting

Admin login: 5 attempts/5 min. Email verification: 5/15 min. Contact form: 5/10 min. All per IP address.

Secure Admin Sessions

httpOnly, sameSite=lax cookies. HMAC-SHA256 signed tokens. No Firebase Auth for admin — completely separate security model.

Firestore Security Rules

Students can only read/write their own data. Guests can submit inquiries but cannot read data. Admin uses server-side SDK (bypasses rules).

Input Validation

Zod schemas validate all form inputs on both client and server. No raw unsanitised data enters the database.

SECTION 7

Third-Party Integrations

Service	Purpose	Features Used
Firebase Firestore	Primary NoSQL Database	Real-time listeners, security rules, 9 collections, Admin SDK server access
Firebase Authentication	Student Login System	Email/password auth, email verification, password reset, session persistence
Cloudinary	Document File Storage	Image & PDF upload, public URL generation, remote deletion on replace, resource type detection
Nodemailer SMTP	Transactional Emails	Welcome email, email verification link, password reset, contact form notification — all custom branded HTML templates
WhatsApp Business	Student-Counsellor Communication	Pre-filled message URLs, click tracking via activity log, counsellor direct link
Vercel Analytics	Website Analytics	Page views, visitor tracking, performance monitoring

SECTION 8

PWA — Progressive Web App

Installable on Phone

"Add to Home Screen" on Android/Chrome. App runs in standalone mode (no browser UI bar) — looks and feels like a native app.

Service Worker

Network-first caching. Static assets (CSS, JS, fonts, images) cached locally. Offline fallback to homepage. Fast repeat visits.

Web App Manifest

Custom app name, theme color (#003f9f), 192x192 and 512x512 icons. Splashscreen-like launch experience.

Offline Support

Homepage and key static pages available offline. API responses excluded from cache to ensure fresh data.

SECTION 9

Course Catalog & Content

Stream	Courses	Count
Teaching	B.Ed, D.El.Ed, B.P.Ed, M.Ed	4
Medical & Nursing	MBBS, BDS, B.Sc Nursing, GNM, ANM, B.Pharma, D.Pharma, BMLT, BASLP	9
Para-Medical	ANM, BMLT, B.Sc MLT, D.Pharma, Physiotherapy, OT Technician, Radiology Technician	7
Law	LLB, BA.LLB, BBA.LLB, LLM	4
Technical & Management	B.Tech, Polytechnic, ITI, BBA, MBA, BCA, MCA, BA, B.Com, B.Sc, MA, M.Com, M.Sc & more	14+

Each Course Page Contains:

- ✓ Full course name & stream
- ✓ Duration (2–5.5 years)
- ✓ Eligibility requirements
- ✓ Annual fees range
- ✓ Career scope & job roles
- ✓ Expected salary ranges
- ✓ Entrance exams required
- ✓ Government job opportunities
- ✓ Top colleges in Bihar
- ✓ BSCC loan eligibility info

SECTION 10

Technical Stack & Architecture

Layer	Technology	Version	Purpose
Frontend Framework	Next.js (App Router)	15.x	SSR, routing, API routes, Turbopack build
UI Library	React	19.x	Component rendering
Language	TypeScript	5.x	Type-safe codebase throughout
Styling	Tailwind CSS	3.4	Utility-first responsive design
UI Components	shadcn/ui (Radix UI)	Latest	Accessible component library
Icons	Lucide React	Latest	Icon library
Database	Firebase Firestore	v10	NoSQL real-time database
Authentication	Firebase Auth	v10	Student login/register
Server Auth	Firebase Admin SDK	v12	Secure server-side DB access
File Storage	Cloudinary	v2	Document upload & CDN
Email	Nodemailer	v6	SMTP transactional emails
Validation	Zod	v3	Schema validation on all forms
Analytics	Vercel Analytics	Latest	Page view & performance tracking
Deployment	Vercel / Firebase Hosting	—	Production deployment options

Codebase Size

- ✓ 90+ TypeScript / React files
- ✓ ~16,000+ lines of code
- ✓ 31 distinct pages/routes
- ✓ 17 backend API endpoints
- ✓ 10 Firestore collections

Architecture Pattern

- ✓ Next.js App Router (server components)
- ✓ Context-based auth state management
- ✓ Firestore real-time listeners for chat
- ✓ Middleware-protected admin routes
- ✓ Fail-closed security by default

Activity Tracking — 10+ Event Types Logged

SECTION 11

Market Valuation & Development Cost Breakdown

Module-wise Development Cost (Indian Market Rates)

Frontend — 31 Pages, Tailwind UI, Animations	₹80,000 – ₹1,20,000
Student Dashboard + Authentication Flow	₹40,000 – ₹60,000
Admin CRM Dashboard (7 modules)	₹60,000 – ₹90,000
Backend APIs (17 endpoints + middleware)	₹50,000 – ₹70,000
Real-time Chat System (Firestore)	₹25,000 – ₹40,000
Document Upload + Cloudinary Integration	₹20,000 – ₹30,000
Email Automation System (4 email types)	₹15,000 – ₹25,000
PWA — Service Worker + Offline Support	₹10,000 – ₹15,000
Notification System + Activity Log	₹15,000 – ₹25,000
Course Catalog (38 courses, full data entry)	₹20,000 – ₹30,000
Blog System (14+ articles, bilingual)	₹10,000 – ₹15,000
Security (Rate Limiting, Rules, HMAC Auth)	₹15,000 – ₹20,000

Total Development Cost

₹3,60,000 – ₹5,40,000

Market Price by Client / Agency Tier

FREELANCER (JUNIOR-MID)

₹2.5L – ₹3.5L

Typical individual freelancer quoting this project from scratch

MID-LEVEL AGENCY

₹4L – ₹6L

Standard Indian IT agency rate for this scope

PREMIUM AGENCY

₹7L – ₹12L

With UI/UX design, branding, and premium support

SaaS Comparison: Comparable platforms like LeadSquared, Meritto (formerly NoPaperForms), or Creatrix Campus charge **₹15,000–₹50,000/month** for similar CRM + student portal features. At ₹20,000/month, the Siksha Wallah platform pays back its development cost in under 18 months compared to SaaS rent.

Note: This valuation covers development cost only. Additional services — hosting/server, domain, annual maintenance, SMS gateway, and Phase 2 features (AI Chatbot + Online Payments) — are priced separately.

SECTION 12

Phase 2 Roadmap — Features Ready to Build

🇮🇳 Online Payments

Razorpay integration groundwork already done (library installed). Admission fee collection, receipts, and payment status tracking can be added in Phase 2.

🤖 AI Admission Advisor

Google Gemini / Genkit library already installed. An AI chatbot that recommends courses based on student's marks, interests, and budget — ready to wire up.

📱 SMS Notifications

Auto SMS to students on application status change. Integration with Twilio or MSG91 for bulk and transactional SMS.

📊 Analytics Dashboard

Visual charts for admin: daily inquiries, course-wise applications, conversion funnel, monthly revenue tracking.

SUMMARY

Complete Platform Overview

What Has Been Built

- ✓ 31 Pages / Routes (public + protected)
- ✓ 17 Backend API Endpoints
- ✓ 10 Firestore Database Collections
- ✓ 3 User Roles (Guest, Student, Admin)
- ✓ Real-time Student–Counsellor Chat
- ✓ Document Upload + Verification System
- ✓ Email Automation (4 template types)
- ✓ PWA — Installable as mobile app
- ✓ Activity Log with 10+ event types
- ✓ 38 Courses with full data
- ✓ 14+ Bilingual Blog Articles
- ✓ Enterprise-grade Security Model
- ✓ ~16,000 lines of TypeScript/React code

Platform Type

Siksha Wallah is a **Full-Stack Admission CRM & Student Portal** — a category of software normally available only as expensive SaaS subscriptions.

₹4L – ₹6L

Conservative Market Value

₹7L – ₹12L

Premium / Agency Value
